INSULATING GLOVES (Class 00)

Article No.: 67255AV801

The Rubber Insulating Gloves (Class 00) are expertly crafted with specially treated natural rubber latex compounds that offer superior dielectric properties. Designed for optimal anatomical fit and low-temperature flexibility, these gloves ensure maximum comfort for wearers during prolonged use. With a thickness of 0.75 inches, they provide reliable protection in high-voltage environments.

SPECIFICATION

Elastomer : Natural rubber

Thickness : 0.75 mm

Lining : Unlined chlorinated Former : Plain smooth, CEI

Cuff Type : Straight **Exterior** : Chlorinated

Colour : Red

Type/Category: Category A, C, Z

Proof test voltage AC : 2,500 V Max. use voltage AC : 500 V

APPLICATION

- For power companies (utilities)
- Electrical workshops
- Insulation
- Maintenance and Repairs involving High Voltage Equipment
