

FLASH & GRIP - CLASS 4

Article No.: 67230RG705

The Flash & Grip Class 4 gloves are specifically designed for high-voltage electrical work, providing superior protection for tasks involving live electricity up to 36,000 volts. With a thickness of 0.48 mm, these gloves combine durability and flexibility, ensuring safety while allowing for dexterity. Tested to 40,000 volts, they comply with rigorous international safety standards, making them suitable for various applications in live electricity handling.

SPECIFICATIONS

Style & Design:

- Tested to 40,000 volts, with a maximum use voltage of 36,000 volts
- **Length:** 41 cm for adequate arm protection
- **Thickness:** 0.48 mm for enhanced flexibility and comfort
- **PPE Category III** (Directive 89/686/EEC)
- Tested to IEC 61482-1-2 and ASTM F2675

Size:

- Extra Small (XS) to Double Extra Large (2XL), sizes 6 to 12

Color:

- Red

Origin:

- France

PROTECTION

- Suitable for live electrical work up to 36,000 volts
- Certified under **Category III** (Mortal Risk)

APPLICATIONS

Ideal for live electricity handling in industrial and maintenance environments

STANDARDS

Manufactured according to **EN 60903:2003** and **IEC 60903:2014** standards

Always Value Everybody's Safety
